Gentlemen:

25X1

[redacted] is pleased to enclose
executed copies of the subject contract.

We would request your clarification of the availability of a Government furnished High Power Stereoviewer upon which the Anamorphic Eyepieces are to be inspected. In technical negotiations for this project, it was understood that inspection of the Anamorphic Eyepieces would be conducted on a standard High Power Stereoviewer which would be supplied as Government furnished equipment. The details of making this High Power Stereoviewer available are not defined in this contract, however we request that an instrument be made available by October 1, 1968.

If you have any questions concerning this contract, please contact the writer directly.

Very truly yours,
